A POWERFUL SERMON.

Nothwithstanding the very inclement weather last night a large crowd came t) the Second Presbyterian Ohurch to hear Rav. E. T. Wellford, of Newport News, in his initial sermon in the series of evangelistic services. There were members of many denominations present, and all were held spellbound as the speaker delineated the wonderful character of the world's great at man, Jesus Ohrist. Jeeus Ohriet, the eternal son of Gid, was his theme, and he said that his only message would be the love of Jesur.

He pictured with depth of emotion the old home with its many scenes and endearing spate, its loving forms and sweet voices-all gone into the dim beyond-and then showed that Jesus Christ was the one who wrote bope over these lost visions, and over the cemetaries of cur land. Je:us Christ, who died as a substitute for mar, died becaused he loved us so. Mr. G. B. Kennedy led the congre-

gation in the hearty singing of old and familiar and much-loved hymns. "Where Ha leads me I will follow" was sung, and it promises to take with the congregation even as it did in the great G,pey Smith services in Washington.

This afternoon, and each afternoon this week at 3:15 Dr. Wellford will give a B ble talk at the church. Com ing at such a convenient hour of the day, these services promise to be very popular.

Tonight the services will begin promptly at 8 o'clock. Mrs. Nalls, one of Alexandria's sweetest singers, will sing "The Ninety-and-Nine."

The part or, Mr. Sevier, will announce tonight that a question-box will be placed in the vestibule of the church, and that each evening for fifteen minutes before the service. from 7:45 t) 8 o'clock, Dr. Wellford will answer all questions relating to salvation and the courch which may be placed in the

FINED TEN DOLLARS EACH.

Among the cases before the Police Court this morning was that of a young | 17,000 man named William Hanstrough and a young woman named L'zzie Conner, who had had been arrested by Officers Nicholson and Talbott at the instance of the woman's husband, William Conner. The man and the woman were found at a late hour lest night in the same room in a house in this city. Conner, who lives in Washington, stated that his wife (former resident of this cit,) had deserted him and her two small children The woman, in her statement, preferred a serious charge against her husband and urged this in extenuation of her Toe husband immediately placed a corespondent on the stand. LECTURE TONIGHT.

Fu'l arrangements have been made by the Knights of Columbus for the complimentary lec'ure by Rev. Father Handley, C. S. P., which will be delivered in Lyceum Hall touight at 8:15 o'clock. A fine musical programme has been arranged. Misses Bill, Waller, Brill and Hill, of this city, and a part of the boy's sanctuary choir of St. Paul's Ohurch, Washington, under Prof. Winche-ter, will participate. The soloists will be Dr C. J. Yeager and Master Raymond King. All are invited. Father Handley's reputation as a lec urer is as great as that of a tu'p't orator.

CARDINALS TO PLAY ON THURE-DAY.

The Cardinal Athletic Cinb's base ball team will on Thuislay play a nine representing the Smithsonian Institution of Washington on the fair grounds. Since their last game the Cardinals have made some changes in the positions of their players, and on Thursday will pre-sent one of the best line-ups seen in this city for several years. Alexandrie has really needed a good baseball team for some time, as there are crowds of "fane" who like to see a fast game, and it is thought the Cardinals will fill the bill. During the sesson the Cardinals will play some of the best teams of Washington and Biltimore, and good games are promised always.

POLIUE COURT.

[Justice H. B. Caton presiding] The following cases were disposed of this morning: Martha Woodlaws, colored, charged

with being drank and disorderly, was fined \$5. William Hansbrough and Lizzie Con-

ner, charged with improper conduct, were fined \$10 each. Onarles Bair, colored, charged with

steating a pair of gloves and a brass torch from the Southern Railway yard, had his case conticued until Thursday.

THE MANASSAS BRANCH.

The Southern Railway recently began the operation of a Pullman buffett parlor car on passenger trains 213 and 214 brtween Harrisonburg, this city and Washington. This improvement in the service, it is believed, will greatly promote the comfort and convenience of the traveling public. Extensive improvemenis have been made on the Harrisonburg branch during the past year. The company has spent liberally through the valley-and with the completion of the improvements now in progress the Harrisoni urg branch will be practically a new railroad, with increased facilities and more efficient service in the operation of its trains. There is now a through passenger service on train 214 from Strasburg to Washington and an additional local passenger train each way between those points. New stations have been built at Linden, Broadway, Mount Jackson, Delaplane and Marshall; six long passing tracks have been constituated, each holding about sixty cars, thus avoiding the annoyance bitherto existing of delaying passenger trains when meeting long freight trains. A quarter of a million dollars have been spent in the construction of new bridges and in strengthening others. Eighty pound rails bave been laid between Harrisonburg and Strasburg; the same class of rail covers balf of the distance from Strasburg to Manassas, and during the next year, it is stated, the remaining half will be supplied with this main line equipment. During the next few weeks heavier engines will be used on the passenger trains; they have already been placed on the freight trains. New coaches have been given to every passenger train, and this along with the Pullmans should give the people as comfortable service as could be reasonably demanded. The superintendent, Mr. G. V. Peyton, and his associates, are given deserved praise for their successful efforts in bringing about this needed improvement, and increase in facilities.

THE GLUT OF HERRING.

For tan days or two weeks six or seven menhaden fish factories in Northumberland and one in Lancaster ran night and day and were unable to handle millions of herring that were offered them by the pound net fishermen. The output of oil averages better than with menhaden. Price paid has been \$1.50 per 1,000 fish. No such wonder ul catch of fish was ever known in the Chesapeake, and if the factories had not opened up our shores would have been a stinch from dead fish. As it is, tens of thousands of dollars have been turned into the pockets of our people. - [Virgin!a Oitizen.

THE TRANSFER BILL.

The bill providing for universal transfers over the street railway lines of the District of Columbia, was passed by the

House yesterday evening.

An amendment by Representative Stafford, of Wiscousin, making the issuance of transfers mandatory, was agreed to, as was an amendment by Representative Carlin, of Virginia, providing for an interchange of transfers between the Capital Traction Company and the Washington, Alexandria, and Mount Vernon Railroad Company, at Twelfth street and Pennsylvania avenue northwest. This amendment, agreed to by a vote of 28 to 27, will have the effect of cheapening the fare between Washington and Alexandria 5 cents, and will enable patrons of the Pennsylvania av-nue Twelfth street and the Long Bridge.

Major A. Hunter Johnson, whose recent serious illness of grip had been mentioned in the G zette, died at Harrisoc-burg this morning. The decessed leaves a widow. He was in the 77th year of his age. Major Johnson was a son of the late John Morgan and Rebecca J. Johnson, and a brother of Mr. John M. and Miss Mary E. Johnson, of this city. He was born in Alexandria and spent the early years of his life in this city. He was a civil engineer by profession, and was in the employ of the old Manparing the plans and in the construction of that road through the Bae Ridge mountains. At the outbreak of the civil war he became a captain in a Virginia regiment and was later made a mejor, in which position he served until the close of the conflict. He subsequently re-entered the service of the Manaseas Gap Railroad and aided in the engineering work incident to the rebuilding of that road from Manassas to Harrisonburg, and after the consolidation of the Manassas and Orange and Alexandria roads he served two years in the employ of the consolidated com-pany. He later became superintendent of one of the divisions of the Baltimore and Ohio Railroad, and was subsequently made chief engineer of maintenance of way, continuing in this position until the road went into the hands of receivers Mejor Johnson's work at Sparrows' Point and New York while he was in the service of the B. & O. road was regarded as fine specimens of engineering skill, and while he was at his home in Prince William county, representatives of the Atlantic Seaboard and Terminal Company at Savannab, who had been struck by the work referred to, sought him out and insisted that he draw plans and constru t the terminals at Savannab, which service he preformed in a manner highly satisfact bry to the company. This was Major Johnson's last active employmert. He later retired to his farm near Harrisonburg where he spent the remainder of his life. His funeral will take place l'hursday.

The Uprising in Albania

Constantinople, April 26 -S xty thousand Albanian rebels and government soldiers are waging war in northern and eastern Albania. Bah eides are being steadily reinforced, and it is probable that before the end of the week 100,000 mon will be engaged. After vainly trying to minim'z; the seriousness of the uprising, officials of the War Department today admit ed that the situation amounts to civil war. The \$5,000 rebels now in the field have had the better of the fightlog, and today's dispatches indicate that the government army, under command of Diavid Pasha and Oneftek Pasha, is in danger of being but in two through the seizure of Kachnik Pass by the rebel'. It is reported that the rebels have cut the arms off several bundred prisoners, including one tundred and fifty soldiers in charge of a mil tury train captured at Kachnik Pass, to insure their non-combatancy. This is made necessary by the Tu kish soldiers' disrigard of their paroles and the inability of the rehels to care for prisoners.

In strategy the rebels has beaten the soldiers. They are being led by a num-ber of former army officers who were discharged at the time of Sultan Abdul Hamid's deposition. They have joined the rebels, knowing that the overthrow of the present regime will mean the restoration of Abdul and their return to power. The revolt is now believed to be wholly religious, though waged under the cry of political and economic reform. The government agreed two weeks ago to grant the reforms demanded, but it had no effect. The Albanians have never ceased in their loyalty to Abdul and look upon the young Turks' progressive program as an attempt to overthrow their religion.

The Prospects for Cotton.

At'auts, Ga., April 26 -With between fifty and severty-five per cont, of the planted cotton crop in Lcu'siana. Mississippi, Alobama and Georgia destroved by the cold scap, and the time limit in which resceding can be completed numbered in days, cotton seed mills are snanding prohibitive prices for the needed seed. Farmers, taking adva: tige of the usually early agring, plant d and sold most of their remaining seed to he mills it \$25 a ton. Today seed it quoted at \$100 a tin, with \$150 for the elected long staple seed, and I ut little is available even at these figures.

The early planting was at the suggestion of the experts of the federal government. It was hoped to bring the stuple to matur ty early enough to comtat the toll weevil. The dlay in platting will bring the crep face to face with this evil even though the crop should be abundant, So serious is the situation that the Department of Agriculture in the states affected is taking official action to cope with it. In Alabama the department has

ordered inspection of the oil mills to see how much seed there is on hand and how fer it will go for platting purposer. In Louisians the department suggested today that the big plantations widen their corn and sugar areas and not r plant cettin, as the chances of a successful crop are small. It is reported this advice will be accepted. In Mississippi the department bas undertaken to secure

needed seed and will get tinto the bands of the planters without delay. Atlanta, Ga., April 26.—Care'ul incrop by the recent cold wave shows forty per cert. of the total acreage in this state must be replanted. Tois will make the crop a month late and will reduce

the supply. General Conference M. E. Church. South, Asheville, N. C., May 4th-25th, 1910.

HAPPY is the man who lives in an age where work and achievement is a "Crowning Glory" and where he can be some-body along with the rest of the people. (HENSHAW)

THAT'S US. We believe in work and achievement. We have started out to do his things and we don't want to stop short of this high calling. We want a heavy run of petronage and we'll put on more steam and extra cars. There will be sea's for everybody and we run our excursions DAY and NIGHT.
